

The Grindstone Award Foundation is an official Registered Canadian Charity that enables young female players the opportunity to participate and improve their skill development in the sport of hockey. We provide financial support to young female hockey players who have the desire to play but are unable to for financial reasons.

We are a grassroots movement with a vision of making impact across Canada by empowering women in life and sport to improve the current state of equality. We have ambitious goals, but need your help to reach the families in your area who are struggling to keep their daughter playing. If you are in need of assistance or know a family who might, please pass along our information or reach out.
